DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Achen. [Examiner's Note: the encircling stucco wall or opening corresponds to the masonry vent, claim 6. Note, column 4, lines 31-33.]

Election/Restrictions

3. Applicant's election with traverse of Figure 2 in the reply filed on June 4, 2004 is acknowledged. The traversal is on the ground(s) that the vent covers of Figure 1 and Figure 2 are different only in decorative design. This reasoning is persuasive. Therefore, Figure 1 will be examined together with the elected Figure 2.
4. Applicant's argument with respect to Figure 3 is acknowledged. The traversal is on the ground(s) that a search and examination of the application can be accomplished without a serious burden on the Examiner. This is not found persuasive because the species of Figures 1, 2 and Figure 3 are mutually exclusive and patentably distinct.

The requirement here is still deemed proper and is therefore made FINAL.
5. Claims 7-9 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim.

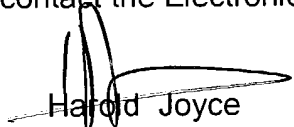

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
